

Armchair Treasure Hunt

MM

Every Xmas, the Logica Sports and Social Club challenges everyone to find buried treasure. The challenge starts in mid December with the deadline about one month later. The challenge is published simultaneously in DiaLogica and on the Logica web site.

Each team on the project is competing against the others for part of this year's £600 prize pool:

- the top prize goes to the best entry from a first timer to the treasure hunt;
- first and second to the hidden treasure;
- best and second best overall entries;
- the wittiest set of answers and a few discretionary prizes.

Expertise in e-business, mobile telephony, EJBs and JSPs will not necessarily assist you in finding the treasure. More useful is a team of lateral thinkers, wide general knowledge, information researchers and puzzle solvers, lead by a Logica employee.

There is no entry form or fee, just submit your entry by the published deadline.

Air rum than chartreuse
